### PROFILE SUMMARY

Enthusiastic and detail-oriented aspiring Technical Solution Analyst with a strong foundation in front-end and backend application investigation techniques. Actively learning skills such as capturing application data, querying databases, cycling servers, and testing workflows internally and externally. Developing effective communication abilities to collaborate with clients and internal teams, ensuring timely documentation of resolutions and knowledge sharing. Committed to balancing client and business needs by prioritizing tasks based on severity. Ready to work flexible shifts and on-call support while continuously enhancing my technical and problem-solving skills. Eager to contribute and grow within a dynamic support organization.

### EDUCATION

B.E(Electronics and Communication Engineering)  
Matrusri Engineering College, Saidabad, Hyderabad

CGPA: 6.8/10  
2021-2024

### EXPERIENCE

#### LabVIEW Industrial Automation Based Professional Training, |Bengaluru, Karnataka May-June/2023

LabVIEW is a graphical programming environment that provides unique productivity accelerators for test system development, such as an intuitive approach to programming, connectivity to any instrument, and fully integrated user interfaces

#### SPR Human Capital solutions | Hyderabad, Telangana

Nov/2020 - May/2021

Fiber Optics Technician Training program provides hands-on instruction in fiber optic cable installation, splicing, testing, and maintenance. The training prepares technicians for certification and successful careers in high-speed network infrastructure

### PROJECTS

#### Four Element Octogonal MIMO Antenna with Enhanced Isolation for ISM/LTE/5G Applications

To design compact quad-port MIMO antenna,utilizing innovative elements such as tapered feedlines and ground plane stubs and to achieve enhanced bandwidth,isolation,diversity performance for applications in bluetooth,ISM band,WLAN/wi-fi,and 5G.

#### Smart Blind Cap Using Arduino

To develop an ultrasonic sensor based smart cap prototype as an electronic travel aid for blind people that can help them travel independently. The tools used are Arduino UNO(A Tmega328p),ultra sonic sensor, buzzer,cap,wires and battery.

### TECHNICAL SKILLS

- Front-End Technologies: HTML, CSS,JavaScript
- Frameworks: Bootstrap,MySQL,React.js
- Developer Tools: VS Code, Git, GitHub

### SOFT SKILLS

- Work Ethic, Problem-solving, Adaptability, Communication, Patience, Flexibility, Time management, Troubleshooting.

### CERTIFICATIONS

- Certified in Center of Excellence, Provided by **LabVIEW** Academy.
- Certified in SPR Human Capital Solutions,Optical Fiber.
